the present Government grant being only Rs 10 As it has been successfully imparting instruction on national line during the last three years in spite of difficulties, the present grant may be raised to Rs 20 to continue to maintain the efficiency of the school without depending upon private donations which have proved to be a failure. The school has been getting the present grant since July 1910. An increase of Rs 5 may be sanctioned.

Rs 5 Rs 5 This Primary School for labourers and artisans is held in Government Kannada School building. Instruction in English is also imparted to some boys. It contains the III class. There is only one teacher who has passed the English Lower Secondary Examination and is paid Rs 4 a month. The Deputy Inspector who inspected the school says "The school is useful for the artisan working classes and there are 13 pupils who also learn English and it is almost impossible for a single teacher to manage and the services of an additional hand is absolutely necessary. Being a school at the District Head quarters, the school deserves special consideration as it has arranged to impart lessons in colloquial English to such of the pupils as wish to learn English and recommends an increase of Rs 5. The school has been getting the present grant since July 1903. I recommend an increase of Rs 5."

Rs 5 Rs 3 This Upper Primary School is located in a Durres building. There are three teachers of whom one is a Matriculate. The total monthly salaries of teachers amount to Rs 26 ranging from Rs 7 to Rs 10. It is reported to be doing good work. The increase of grant is asked for to improve the staff. Rs 15 - This Industrial School which is located in the old Mahal buildings at Chutaldung is an elementary one. Carpentry, Weaving and rattan work are taught. There are at present two instructors, one for carpentry and the other for Weaving and they are well qualified to teach those subjects and they get Rs 3 each per mensem, besides the Superintendent who gets Rs 3. In recommending an increase of grant, the Deputy Commissioner states that the present grant is quite inadequate to meet the bare necessities and as the sums realised by private contribution are also diminishing every month, it is found not possible to employ full time teachers and consequently the working hours have been reduced from 12 to 2 p.m. It is further reported that for want of funds to pay scholarships to deserving pupils, a good number of them from Buryanahatti hamlet have left the school. It will be a great pity if this institution which has been in existence for nearly two years and is attracting good many pupils should have to be closed for want of funds. The maintenance of this institution in this out of the way place for the benefit of the backward classes is a matter of pressing necessity. He recommends a grant Rs 70 to meet the following expenditure

1. Pay of carpentry teacher	Rs 15 a month
2. Do Weaving do	Rs 15

This is the largest Industrial School where work is carried on by machinery. It is located in a large building specially constructed for the purpose. Highest grade cabinet-making, first class fitting, blacksmithing and foundry-work are taught. There are seven instructors besides the Superintendent who are well qualified to teach. The total amount of salaries paid to teachers comes to about Rs 277 a month, ranging from Rs 9 to Rs 165. The school is reported to be doing good work. The school has been getting the present grant since July, 1891. I recommend an increase of Rs 75.

Rs 95 Rs 15

There are two sections in the school - one A V section and the other Industrial. The A V section teaches up to I Form. Elementary carpentry and rattan work are taught in the Industrial section. Both the sections are located in a rented building. There are five teachers in the literary section and two in Industrial section. All teachers are qualified to teach the subjects taught in the school. The total amount of monthly salaries comes to Rs 99. The Manager states that the present grant is very inadequate to keep up the efficiency of the institutions and requests that an increase of grant may be sanctioned. A grant of Rs 30 was sanctioned for both the sections from July 1912. Under these circumstances an increase of Rs 15 is recommended.

Rs 2 Rs 2

This Primary School is located in a Mission building. There is only one teacher who is an unpassed candidate and is paid Rs 8 a month. The Deputy Inspector, Bangalore, who inspected the school recommends an increase if a passed teacher is appointed. The school has been getting the present grant since July 1910. An increase of Rs 2 may be sanctioned.

Rs 10 Rs 5 This Middle School is located in a rented building. It contains ^{the} IV class. There are four masters including Singing Master. Two masters have passed the Lower Secondary Examination. The salaries of masters amount to Rs 34 a month. The increase of grant applied for is to meet the cost of appointing 2 additional masters and a master for sewing. The Inspector recommends that the grant may be increased to Rs 35. An increase of Rs 5 may be sanctioned.

Rs 10 Rs 5 This Middle School is located in the new school building constructed by the Mission. It contains ^{the} IV class. The staff consists of 7 teachers, four of whom are women who are either certificated or trained teachers, and it is under the direct supervision of a European Lady who spends much time in it. The Manager states that the grant is inadequate and out of proportion to the cost of maintaining the school and requests that the grant may be raised. Under the above circumstances an increase of grant of Rs 5 may be sanctioned.

Rs 20 Rs 20 With the exception of the Girls' School at Kubbampete all the three schools are primary schools; the school at Kubbampete was raised to Middle standard in 1910. All the schools are located in Mission buildings. There are 8 teachers in the school at Kubbampete and 6 teachers in each of the other schools including singing and sewing masters, besides the Lady Superintendent who is a London B.A. The monthly salaries of all masters amount to Rs 232. There are 12 conductresses who are paid Rs 58 a month. The pay of the teachers ranges from Rs 7 to Rs 18. The Lady Superintendent states that several of the teachers are deserving

of higher salaries, the Mission are in danger of losing some of the better teachers through lack of ability to increase the salaries and requests that Government may be pleased to increase the upkeep grant by Rs 20 per month thus bringing the Government grant up to rather less than one third of the monthly expenditure. The schools are reported to be doing very good work an increase of Rs. 20 a month may be sanctioned.

Rs 30 This Commercial High School has two sections - English and Kannada. The English section is located in the London Mission High School, Bangalore and the Kannada section in "No 121, Sultanpete, Bangalore. It maintains classes for advanced courses in commercial subjects. The Manager says "at present the two commercial Assistant Masters work only 4½ hours a week. To do good work they will be required to work at least 12 hours a week and they will not do so unless they are paid the lowest Rs. 30 each a month, as these men are fully qualified and hold Teachers' Diplomas and it is impossible to obtain men of these qualifications for anything less than Rs 30 a month. Another Assistant to the Kannada section on Rs 10 is urgently needed and the present man is to be given a small promotion. The Manager now works almost 6 hours a day. A section for group C of the Mysore School Leaving Certificate has been formed and there are 5 pupils in that section. It is probable that this section will swell with the new academical year. Under these circumstances the Manager prays that the grant may be raised to Rs 80 an increase
